

International Radiofrequency Ablation (RFA) Training Program Questionnaire

Feb. 25th - Feb. 27th, 2016

Thank you for your participation in International Radiofrequency Ablation Training Program at Juntendo University Hospital. We would like to hear your feedbacks on the program to improve next training program.

Name: Huang Yung Ning Organization: Chang Gung Memorial Hospital, China, Xiamen Branch.

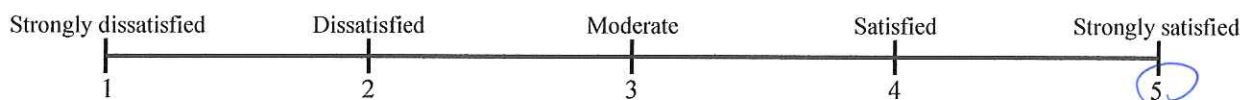

➤ Please rate the overall program.

<Feedbacks> Wonderful, and necessary to every hepatologist.

If you have any improvement opportunity, please describe:

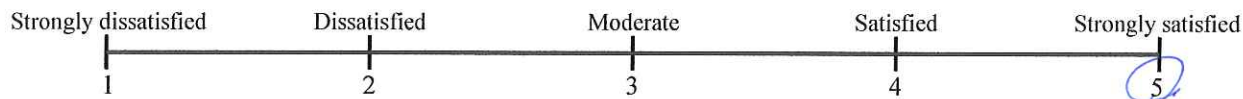

➤ Please rate the lectures.

<Feedbacks> It helps a lot, not even the RFA case, still but also the mechanism of device.

If you have any improvement opportunity, please describe:

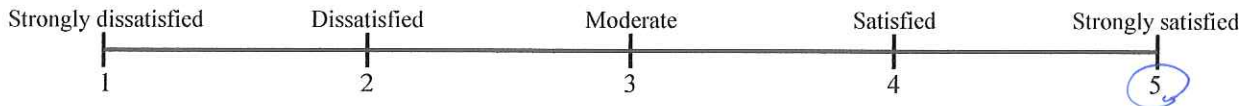

➤ Please rate the live demonstrations.

<Feedbacks> Although it may take even more time, but I want to be participated the whole process of a patient from admission to discharge.

If you have any improvement opportunity, please describe: The whole hospitalisation.

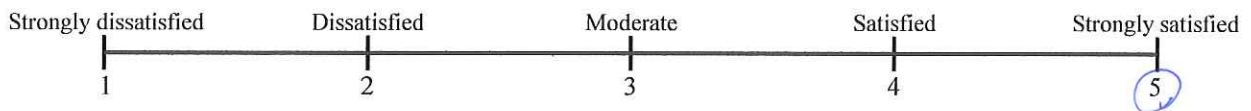

➤ Please rate the case studies.

<Feedbacks> 😊 I can't even know how to describe, it's good ~~and~~.

If you have any improvement opportunity, please describe:

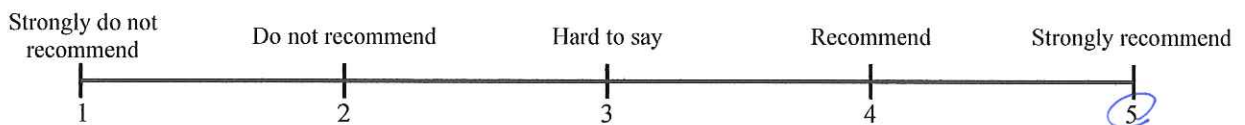

➤ Please rate the logistics (Time allocation, lecture room environment, welcome party, and/or accommodations).

<Feedbacks> Everything is warm, sweet and ~~thoughtful~~ thoughtful.

If you have any improvement opportunity, please describe:

➤ Will you recommend this training program to your colleagues?

If yes, state the reason.

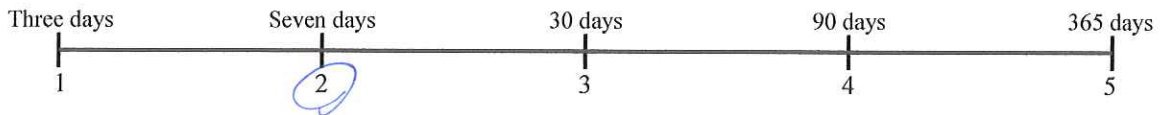

↓
I think the skill of RFA here is the best in the world, and a hepatologist, it's always good and necessary to observation the master's skill. Besides, there're so many things as spirit, culture, ever system of RFA, we should learn.

➤ Would you or your young staff like to study in our division of diagnostic imaging and interventional oncology, Juntendo University.

Of course, And please inform me if there's any other training program in Juntendo hospital.

E-mail: ning 0219@gmail.com

- How many days do you think are the best for the international RFA training program?

Maybe five days even better.

- What other topics would you like to see in the future ablation training course?

The outpatient department - & also I want to observation.
Thanks a lot. Japan - Tokyo and professor & staffs.

Thank you for your cooperation.

International Radiofrequency Ablation (RFA) Training Program Questionnaire

Feb. 25th - Feb. 27th, 2016

Thank you for your participation in International Radiofrequency Ablation Training Program at Juntendo University Hospital. We would like to hear your feedbacks on the program to improve next training program.

Name: Shih-Jer Hsu Organization: NTUH-YL Branch, Taiwan

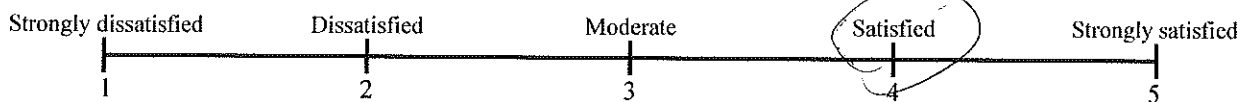

➤ Please rate the overall program.

<Feedbacks>

If you have any improvement opportunity, please describe:

➤ Please rate the lectures.

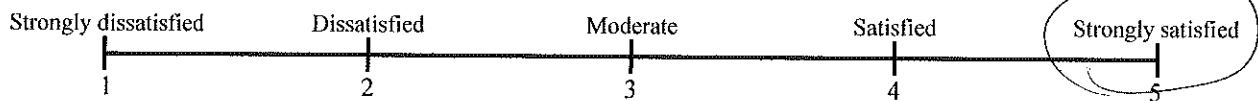

<Feedbacks>

If you have any improvement opportunity, please describe:

Add ~~topics~~ topics for preparation and aftercare of RFA patients

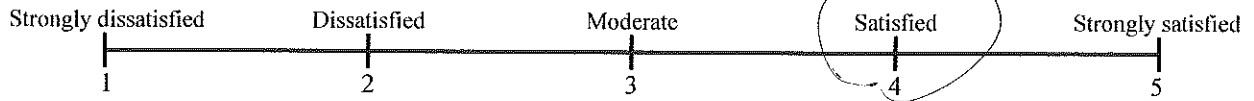

➤ Please rate the live demonstrations.

<Feedbacks>

If you have any improvement opportunity, please describe:

➤ Please rate the case studies.

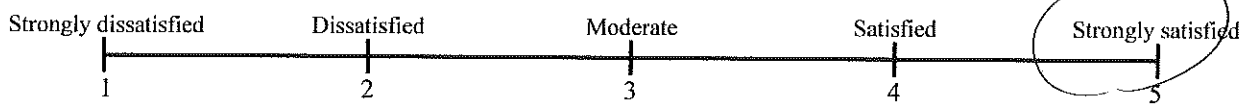

<Feedbacks>

If you have any improvement opportunity, please describe:

Add some video demonstration for case studies.

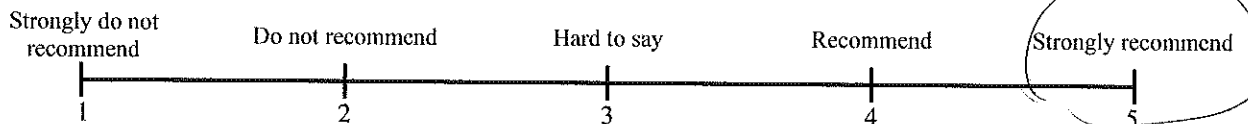

➤ Please rate the logistics (Time allocation, lecture room environment, welcome party, and/or accommodations).

<Feedbacks>

If you have any improvement opportunity, please describe:

➤ Will you recommend this training program to your colleagues?

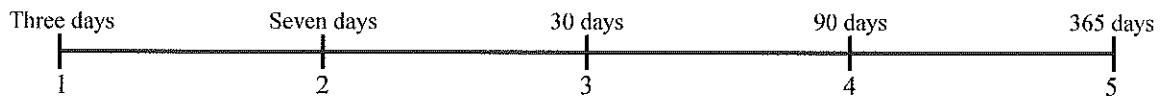

If yes, state the reason.

If no, state the reason.

➤ Would you or your young staff like to study in our division of diagnostic imaging and interventional oncology, Juntendo University.

I will encourage our young staffs to apply for either short-term course or longer period of observationship in your hospital.

➤ How many days do you think are the best for the international RFA training program?

3 ~ 5 days (add some live-demos or hand-on)

➤ What other topics would you like to see in the future ablation training course?

Preparation and after-care of patients

Hand-on of CEWS & Fusion image.

Thank you for your cooperation.

Feb. 25th - Feb. 27th, 2016

Thank you for your participation in International Radiofrequency Ablation Training Program at Juntendo University Hospital. We would like to hear your feedbacks on the program to improve next training program.

Name: HERY DJAGAT PURAOMO Organization: DR. KARIADI HOSPITAL SEMARANG
INDONESIA

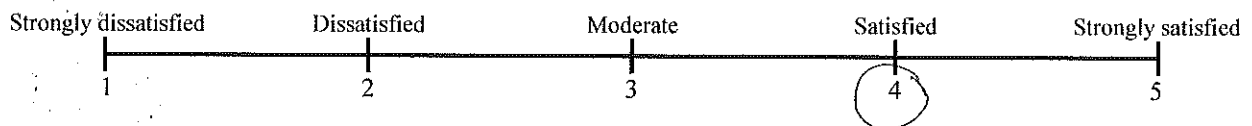

➤ Please rate the overall program.

<Feedbacks>

If you have any improvement opportunity, please describe:

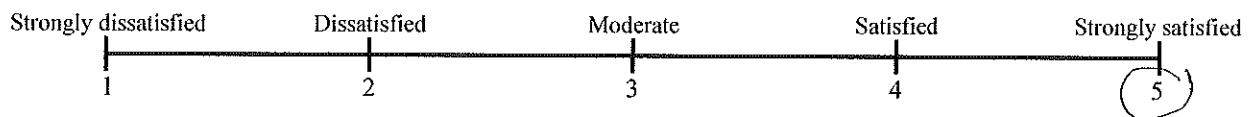

➤ Please rate the lectures.

<Feedbacks>

If you have any improvement opportunity, please describe:

➤ Please rate the live demonstrations.

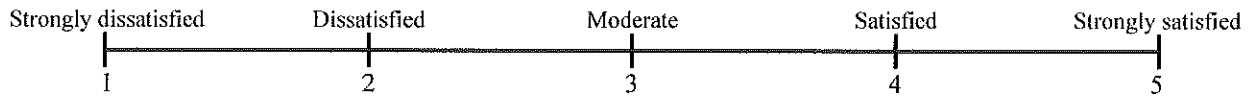

<Feedbacks>

If you have any improvement opportunity, please describe:

may live demo per not only difficult cases.

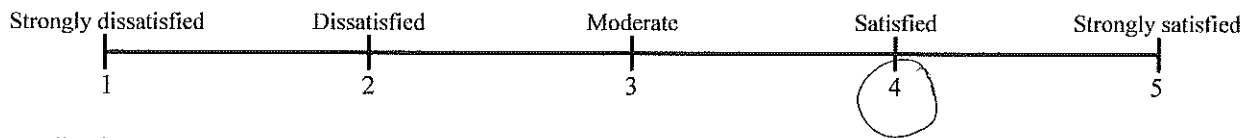

➤ Please rate the case studies.

<Feedbacks>

If you have any improvement opportunity, please describe:

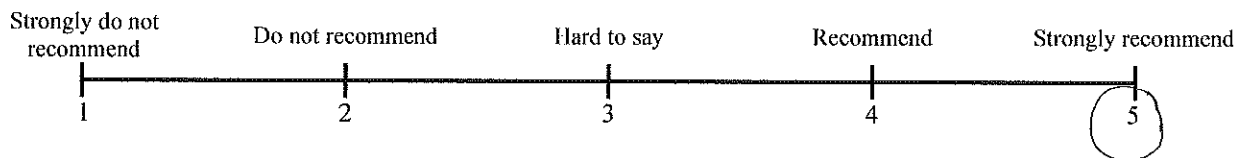

➤ Please rate the logistics (Time allocation, lecture room environment, welcome party, and/or accommodations).

<Feedbacks>

If you have any improvement opportunity, please describe:

➤ Will you recommend this training program to your colleagues?

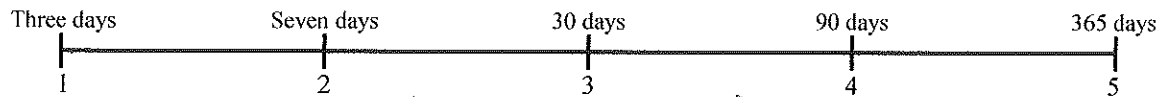

If yes, state the reason.

If no, state the reason.

➤ Would you or your young staff like to study in our division of diagnostic imaging and interventional oncology, Juntendo University.

Yes, FOR RFA TRAINING HANDS ON

➤ How many days do you think are the best for the international RFA training program?

- BASIC skill (beginner doctor) 7 days
 - DIFFICULT CASES (EXPERIENCED DOCTOR) FOR 3 days
-

➤ What other topics would you like to see in the future ablation training course?

- WORKSHOP HANDS ON TRAINING FOR RFA
-

Thank you for your cooperation.

International Radiofrequency Ablation (RFA) Training Program Questionnaire

Feb. 25th - Feb. 27th, 2016

Thank you for your participation in International Radiofrequency Ablation Training Program at Juntendo University Hospital. We would like to hear your feedbacks on the program to improve next training program.

Name: IRSAN HABIB Organization: UNIVERSITY OF INDONESIA

➤ Please rate the overall program.

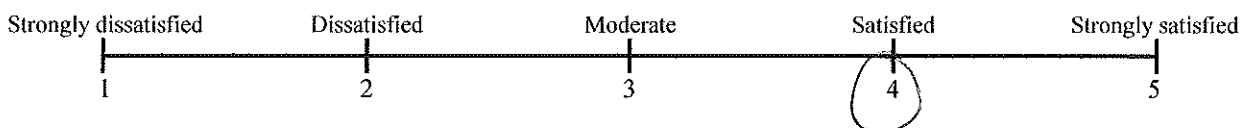

<Feedbacks>

If you have any improvement opportunity, please describe:

SAYA SANGAT PUAS.
SELURUH KEGIATAN SANGAT BERMANFAAT

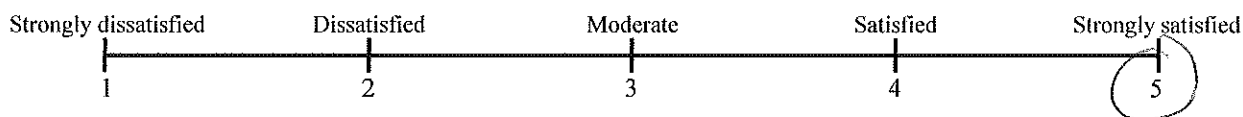

➤ Please rate the lectures.

<Feedbacks>

If you have any improvement opportunity, please describe:

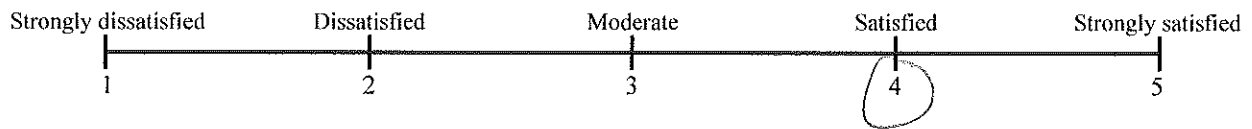

➤ Please rate the live demonstrations.

<Feedbacks>

If you have any improvement opportunity, please describe:

➤ Please rate the case studies.

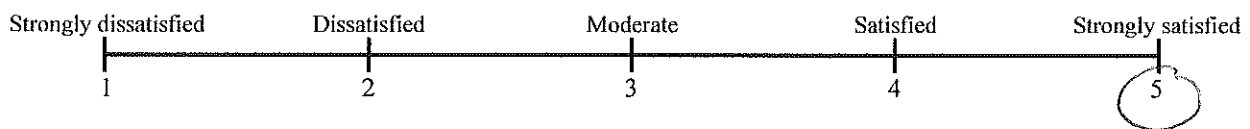

<Feedbacks>

If you have any improvement opportunity, please describe:

^{HEC}
I need more cases with medium tumors.

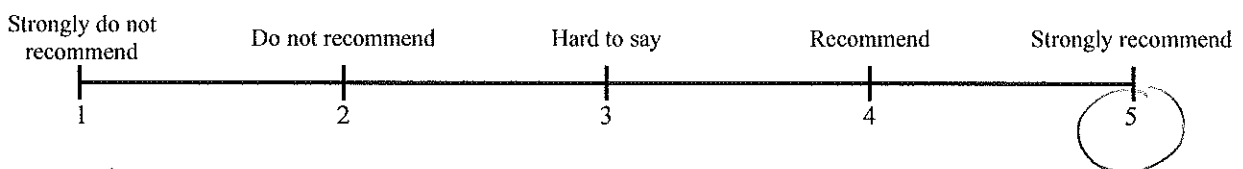

➤ Please rate the logistics (Time allocation, lecture room environment, welcome party, and/or accommodations).

<Feedbacks>

If you have any improvement opportunity, please describe:

➤ Will you recommend this training program to your colleagues?

If yes, state the reason.

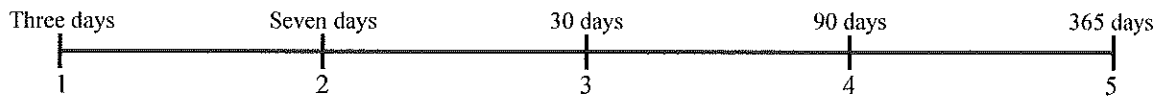

Most of the doctors in our country learn hepatology procedures by themselves (amboldiac). It would be better if we have a special training.

If no, state the reason.

➤ Would you or your young staff like to study in our division of diagnostic imaging and interventional oncology, Juntendo University.

Yes.

➤ How many days do you think are the best for the international RFA training program?

I suggest to make 2 different classes:
1. 7 days for beginners
2. 3 days for experts

➤ What other topics would you like to see in the future ablation training course?

Thank you for your cooperation.

Your comments (anonymized) might be uploaded to our web site.

International Radiofrequency Ablation (RFA) Training Program Questionnaire

Feb. 25th - Feb. 27th, 2016

Thank you for your participation in International Radiofrequency Ablation Training Program at Juntendo University Hospital. We would like to hear your feedbacks on the program to improve next training program.

Name: Nifedy Kurniawan Organization: Cipto National General Hospital, Jakarta Indonesia

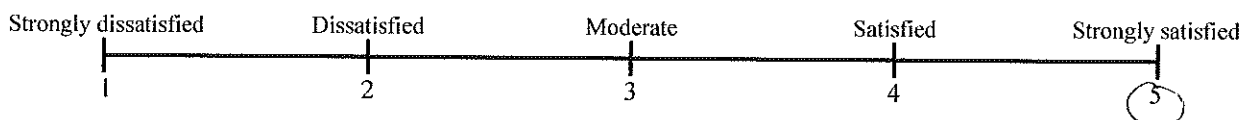

➤ Please rate the overall program.

<Feedbacks>

If you have any improvement opportunity, please describe:

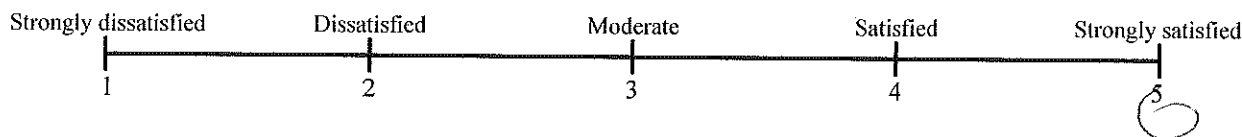

➤ Please rate the lectures.

<Feedbacks>

If you have any improvement opportunity, please describe:

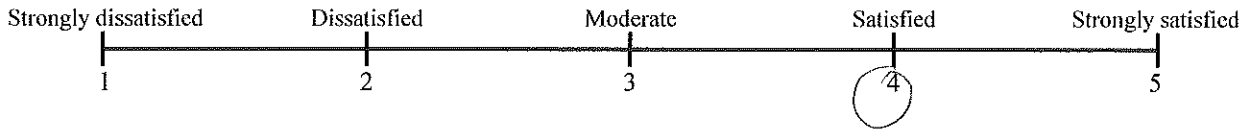

➤ Please rate the live demonstrations.

<Feedbacks>

If you have any improvement opportunity, please describe:

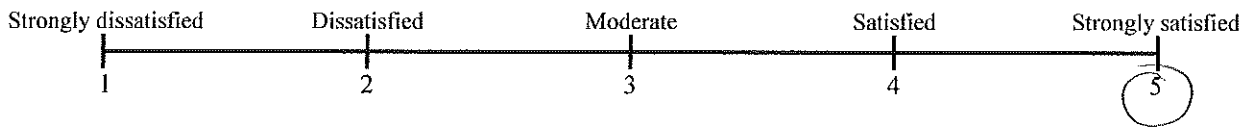

➤ Please rate the case studies.

<Feedbacks>

If you have any improvement opportunity, please describe:

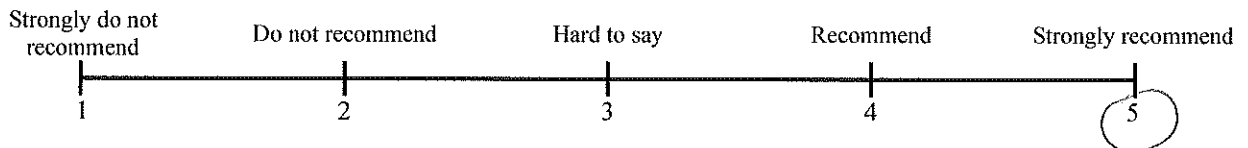

➤ Please rate the logistics (Time allocation, lecture room environment, welcome party, and/or accommodations).

<Feedbacks>

If you have any improvement opportunity, please describe:

➤ Will you recommend this training program to your colleagues?

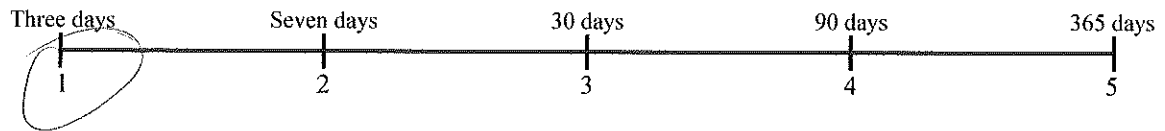

If yes, state the reason.

Strongly recommended because many techniques and positioning as well as device manual improvisation that beneficial to gain the best results of ablation.

➤ Would you or your young staff like to study in our division of diagnostic imaging and interventional oncology, Juntendo University.

Yes, certainly I would

➤ How many days do you think are the best for the international RFA training program?

For experience 3 days are enough

➤ What other topics would you like to see in the future ablation training course?

Ablation of extrahepatic tumor, such as metastatic lesion at

basal of lung.

Thank you for your cooperation.

International Radiofrequency Ablation (RFA) Training Program Questionnaire

Feb. 25th - Feb. 27th, 2016

Thank you for your participation in International Radiofrequency Ablation Training Program at Juntendo University Hospital. We would like to hear your feedbacks on the program to improve next training program.

Name: Ramon S. Santos-Ocampo Organization: Makati Medical Center

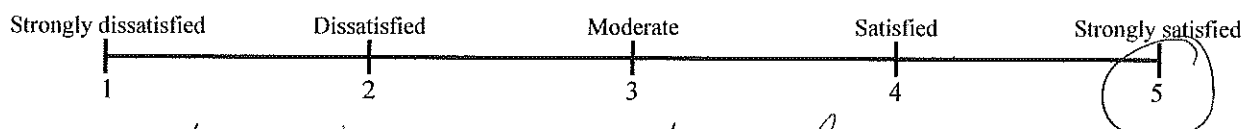

➤ Please rate the overall program.

<Feedbacks>

If you have any improvement opportunity, please describe:

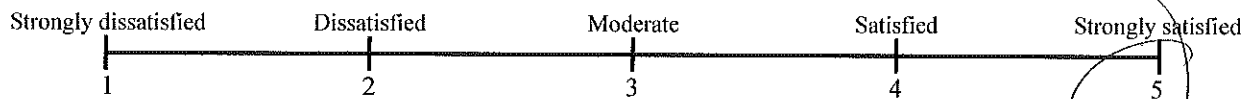

➤ Please rate the lectures.

<Feedbacks> *I was fortunate to have learning from Dr. Shina, and from the other participants who shared their knowledge, including Mr. Joe Brennan*

If you have any improvement opportunity, please describe:

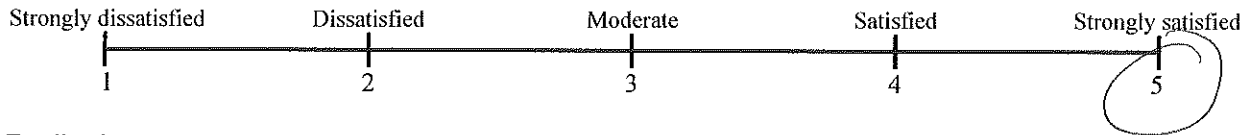

➤ Please rate the live demonstrations.

<Feedbacks> *I can say that I have seen how RFA can be done when all equipment is available and combined with experience of Dr. Shina*

If you have any improvement opportunity, please describe:

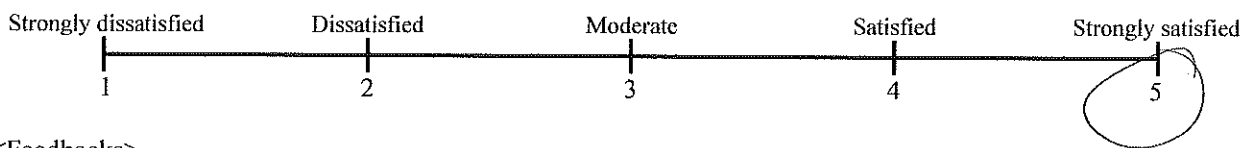

➤ Please rate the case studies.

<Feedbacks>

If you have any improvement opportunity, please describe:

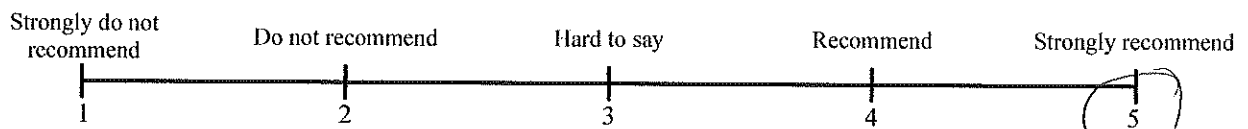

➤ Please rate the logistics (Time allocation, lecture room environment, welcome party, and/or accommodations).

<Feedbacks>

If you have any improvement opportunity, please describe:

➤ Will you recommend this training program to your colleagues?

If yes, state the reason.

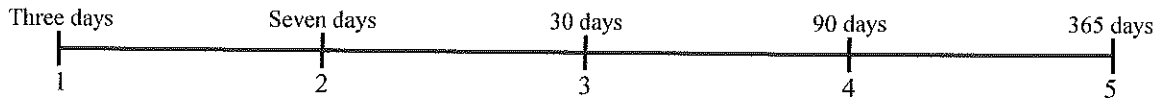

If was able to get answers to my questions, which I have developed after practicing RFA for many years

If no, state the reason.

➤ Would you or your young staff like to study in our division of diagnostic imaging and interventional oncology, Juntendo University.

Yes I will mention to anyone interested in doing RFA

- How many days do you think are the best for the international RFA training program?

➤ For experienced ↘ For those not yet experienced } then they should go back after doing patients in their country

- What other topics would you like to see in the future ablation training course?

For beginners, important to show how to operate the machine and explain why the technique in *fantendo* is different from standard ablation mode on the *E-series*.

Thank you for your cooperation.

International Radiofrequency Ablation (RFA) Training Program Questionnaire

Feb. 25th - Feb. 27th, 2016

Thank you for your participation in International Radiofrequency Ablation Training Program at Juntendo University Hospital. We would like to hear your feedbacks on the program to improve next training program.

Name: Denise Cerqueira Paranagua Vezozzo Organization: Prof Dr. S.Shiina

➤ Please rate the overall program.

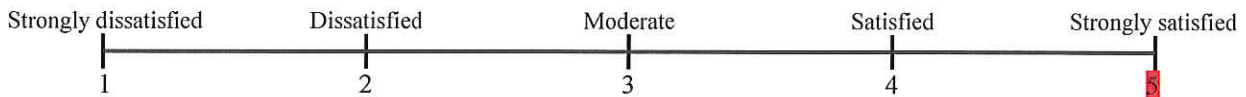

<Feedbacks>

If you have any improvement opportunity, please describe:

If the program could happen on 7 days, we would have more chance to attend more live patient's demonstrations with different technical problems that arise in each procedure. This could promote an additional benefit of knowledge, information and skill that might be transformed, multiplied and applied in the original local medical service of each doctor.

If the program could offer extra normal time, then another possibility could include supplementary activities like live equipment's and needle's demonstrations, simultaneously with their applicators of each particular industry company: Covidien, Toshiba, GE...

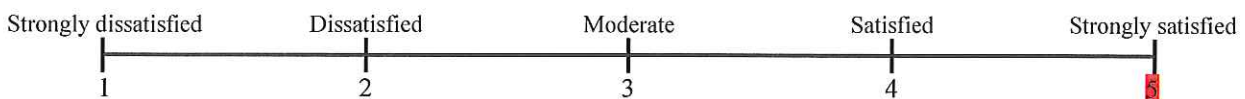

➤ Please rate the lectures.

<Feedbacks>

If you have any improvement opportunity, please describe:

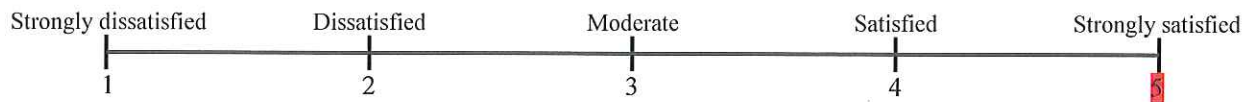

➤ Please rate the live demonstrations.

<Feedbacks>

If you have any improvement opportunity, please describe:

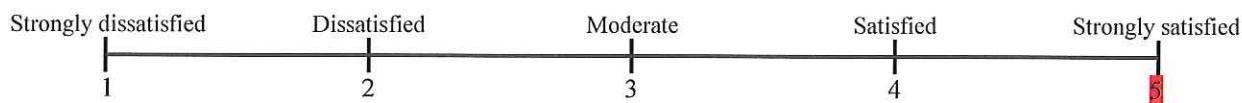

➤ Please rate the case studies.

<Feedbacks>

If you have any improvement opportunity, please describe:

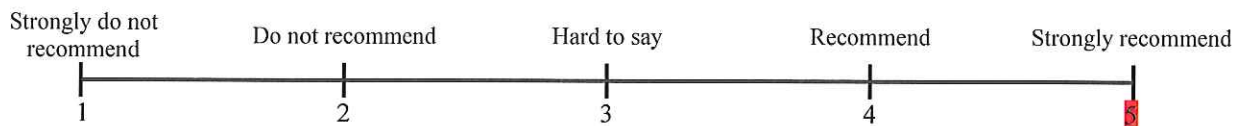

➤ Please rate the logistics (Time allocation, lecture room environment, welcome party, and/or accommodations).

<Feedbacks>

If you have any improvement opportunity, please describe:

➤ Will you recommend this training program to your colleagues?

If yes, state the reason.

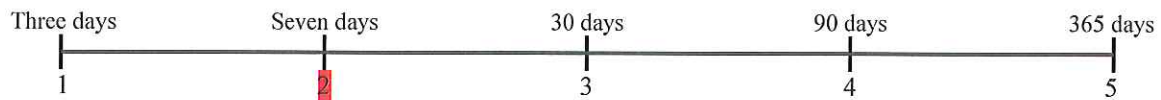

Service with a recognizable experience, excellent medical quality and robust clinical results.

If no, state the reason.

➤ Would you or your young staff like to study in our division of diagnostic imaging and interventional oncology, Juntendo University.

The period length that could be convenient for our students would be around 6 months.

➤ How many days do you think are the best for the international RFA training program?

Three days of program is very nice, but seven seems very special!

➤ What other topics would you like to see in the future ablation training course?

- 1- Basic principles of RFA method: rationale of the hot energy distributed across the special needle to achieve the necrosis within the liver tumor (how the radio waves kill cancer cells, why cool tip RFA system works better); the way the RFA machine operate in relation the controls buttons (the time necessary to make the complete ablation of the liver tumor, the necessity of an auxiliary nurse to help the registration of the oscillation of the energy during the process), specific care of the equipment, needles and accessories.
 - 2- Fusion US equipment: more details about the machine functions and also how to operate the machine.
 - 3- List of all items necessary to perform RFA procedures: different needles, dedicated transducer and all the accessories that compose the therapeutic intervention.
-
